

B.E.S.T. INNOVATION COURSE 2012

Business | Engineering | Surgical Technologies

This year, we are exploring an innovative educational pilot in **minimally invasive surgery (MIS)**, which for the 1st time benefits **surgery, engineering, and entrepreneurship**. Are you a medical, engineering or business student? This course can be the catalyst to help your education accelerate and expand its potential by blending innovation with business and increasing production from your existing assets.

BE A PART OF IT ⇨

ONLINE LECTURES STARTING 10 NOVEMBER

Laparoscopic surgery, N.O.T.E.S., robotics, surgical endoscopy, image-guided surgery, entrepreneurship and career. This year part of the BEST innovation course, all your favorite topics in Minimally Invasive Surgery, broadcasted LIVE online, featuring you and fellow students from all over the world!
